

DURATURF® Sports Oval

Features

- **Dense uniform sward**
- **Rapid establishment (especially good for change of codes)**
- **True Winter activity**
- **Ideal for over-sowing warm season grasses**
- **Rapid recovery from wear**
- **Exceptionally tolerant to low mowing**
- **Drought tolerance**

DURATURF® Sports Oval contains three elite winter-active, hard wearing, turf-type perennial ryegrasses. The blend is a medium-fine, mid-green, perennial ryegrass blend that contains cultivars which are a cross between Mediterranean and American genetics. The Mediterranean genetics give the turf active winter growth in cooler weather and rapid germination, especially in cold temperatures down to 5°C. DURATURF® Sports Oval establishes rapidly from sowing, enabling this blend to be brought into play sooner without comprising turf grass performance. It also provides naturally vigorous growth year round and delayed onset of browning in summer. DURATURF® Sports Oval is ideally suited to winter sports grounds, golf tees, golf fairways and lawns receiving heavy wear, especially in the winter. Its attractive glossy mid-green colour coupled with active year round growth makes it visually appealing (its mid-green colour has also been used to help “mask” the invasion of *Poa annua* and other grassy weeds).

Contains

Cultivar	Species
Arena I	Perennial ryegrass
Colosseum	Perennial ryegrass
Tambour	Perennial ryegrass

Application Rates

Sowing rate: 30-50 g/m² (3-5 kg/100m²)
Oversowing: 25-35 g/m² (2.5-3.5 kg/100m²)

Mowing Heights

Down to 12mm
